CLIENT PREFERENCES – FINE LINENS

Bed linens

- Hang lengthwise on 18" wide tube hangers
 - Hand-fold on a white acid-free board
- Sorry, we do not return bed sheets on rollers

Table linens

- Hang lengthwise on 18" wide tube hangers
- Hand-fold on a white acid-free board (with minimum of folds)
- Roll on a reusable, acid-free roller

Table napkins, placemats and coasters

- Lay flat on a white acid-free board (with no folds)
- Hand-fold over a small tube hanger (with maximum one rolled fold)

Other Fine Linens Information

DEFINITIONS

French cuffs – flat

French cuffs returned without a fold roll and without a fold press.

French cuffs – fold roll

French cuffs turned up with no crease. Cuff link buttonholes are aligned.

French cuffs – fold press

French cuffs turned up with a straight light crease. Cuff link buttonholes are aligned.

Sleeves – rolled

No crease across the top of the sleeve (with a light crease along the bottom seam of the sleeve).

Sleeves – creased

A light crease across the top of the sleeve (with a light crease along the bottom seam of the sleeve).

Collar supports – insert

A V-shaped flat plastic collar support inserted into the top button of the shirt to prevent "collar droop".

Collar supports – no supports

No supports to be used on any shirt.

Packaging – hangers

Shirts returned on 18" wide shirt hangers.

Packaging – hand folded

Shirts returned hand folded (never machine folded) and sealed in a super heavy gauge shirt bag with a "built in" cushion of air. Packaging includes cardboard shirt board, acid-free tissue, V-shaped flat plastic collar support in the top button, and collar bands on the inside of the collar and under the collar.

Soft press all cottons/linens

Garment is finished by hand with no sizing and no water vapor. Result is a "semi-wrinkled" fabric with no smoothness and no "body" or crispness.

No sizing all cottons/linens

Garment is finished by hand with no sizing, using water vapor only. Result is a smooth fabric with a little "body" or crispness.

Light sizing all cottons/linens

Garment is finished by hand with sizing and water

vapor. Result is a smooth fabric with good "body" or crispness. Cottons and linens can also be processed with medium or heavy sizing on request.

Fold slacks/trousers/jeans over strut hanger

All slacks/trousers/jeans returned folded in the knee-thigh area over the bar of a strut hanger.

Clip slacks/trousers/jeans lengthwise at waist

All slacks/trousers/jeans returned with no fold in the knee-thigh area, hanging lengthwise, and clipped at the waist using a plastic clip hanger.

All slacks/trousers/jeans with "no creases" are always returned in this manner (unless specifically otherwise requested). All linen slacks/trousers/jeans are always returned in this manner (unless specifically requested otherwise). All shorts are always returned in this manner.

Clip slacks/trousers lengthwise at hem

Same as "clip slacks/trousers lengthwise at waist" except that slacks/trousers/jeans are clipped at the hem (instead of at the waist) using a plastic clip hanger.

We do not recommend this method, especially for slacks/trousers with cuffs. Nonetheless, we will honor your request.

No creases on any slacks/trousers/jeans

All slacks/trousers/jeans returned with no creases even if the slacks/trousers/jeans appear to have creases when received at our fabricare facility.

Crease all slacks/trousers/jeans

All slacks/trousers/jeans returned with creases even if the slacks/trousers/jeans appear to have no creases when received at our fabricare facility.

Fold sweaters over strut hanger

All sweaters returned folded across the center over the bar of a strut hanger.

Fold sweaters flat in breathable sweater bags

All sweaters returned flat, carefully folded and cushioned with acid free tissue in a breathable sweater bag.
